## EDUCATION

---

### **B.Tech. in Computer Engineering**

*Thakur College Of Engineering and Technology University, Borivali*  
CGPA: 8.96

## SKILLS

---

**Full Stack Web Development:** HTML, CSS, JavaScript, React.js

**Version Control:** Git, GitHub

**Programming Languages:** Python, Java

**Web Design:** Responsive Web Design, UI/UX

**Languages:** English, Hindi

## PROJECTS

---

### **Tic-tac-toe Game**

Developed a classic Tic-tac-toe game where two players can compete on a 3x3 grid. Implemented win conditions, a tie state, and a user-friendly interface.

### **GitHub Profile Hunter**

Created a web application that allows users to search for GitHub profiles by entering usernames. Utilized the GitHub API to fetch and display profile information, repositories, followers, and following.

### **Password Generator App**

Designed a desktop application that generates secure passwords based on user preferences. Implemented options for length, character types, and ensured password strength.

## ACTIVITIES

---

### **MULTICON-W 2022 (Research paper)**

Participated in a National level Research Paper Writing Competition with my fellow team-mates on the topic FACE-ID Technology.

### **Contests and Problem Solving**

Actively attending contests and solving problems on LeetCode, CodeChef, GeeksforGeeks.

## INTERESTS

---

Passionate about frontend web development, with a focus on creating visually appealing and user-friendly interfaces. Excited about exploring new technologies and design trends to enhance the overall user experience. Constantly seeking to improve skills and stay updated with the latest advancements in the field.
